Accessibility Report for AI-Powered Remediations

Generated Dec 08, 2021

For **https://bgizl8.com**

AI-Powered Accessibility Widget leverages advanced artificial intelligence (AI), Machine Learning (ML), and computer vision technologies to provide compliance and accessibility. These automated technologies coupled with human review and approvals ("Human in the Loop") ensure this site meets, and exceeds, WCAG 2.1 AA standards.

This report delineates a high-level overview of the remediations provided by AI and shows site compliance levels on the date of report generation.

AI continuously monitors and remediates all accessibility violations detected on this site based on exhaustive WCAG 2.1 AA rulebase. It ensures that the latest requirements, rule bases, and remediations are applied as the W3C (the World Wide Web's standards body) authors new WCAG guidelines and adapts existing WCAG guidelines to evolving technologies, browsers, and devices. WCAG standards are the guidelines that serve as the basis for the legal accessibility standards as required by the ADA, AODA, EN 301 549, RGAA, and other regulatory bodies around the world.

# Remediation Summary

bgizl8.com

- **A** (41 fixed)
- **AA** (45 fixed)
- **AAA** (48 fixed)

Pages on site: **0**

Violations found: **134**

Violations remediated: **134**

History of Violations Remediated

Accessibility Violations by Page

Page Name	Date remediated	A	AA	AAA	
🌐 / Homepage	Dec 08, 2021	41	45	48	134 violations fixed
🌐 /BWpbHS	Dec 08, 2021	42	46	47	135 violations fixed
🌐 /NwDnL8	Dec 08, 2021	22	26	43	91 violations fixed
🌐 /nxEIcB	Dec 08, 2021	26	19	40	85 violations fixed
🌐 /9OyeHv	Dec 08, 2021	14	49	12	75 violations fixed
🌐 /fHsyrl	Dec 08, 2021	21	17	21	59 violations fixed

Accessibility Violations by WCAG Criteria

Image lacks a required 'alt' attribute (Level A)

Checks that each image has an alt attribute with a sufficiently clear and concise description to convey the meaning of the image to visually impaired users relying on screen readers and other assistive technologies.

URL	29 Occurences	Status	Detected on
bgizl8.com/	29	Remediated	Desktop
bgizl8.com/BWpbHS	16	Remediated	Desktop
bgizl8.com/NwDnL8	19	Remediated	Desktop
bgizl8.com/nxEIcB	14	Remediated	Desktop
bgizl8.com/9OyeHv	6	Remediated	Desktop

Image has 'alt' and 'title' attributes that are different (Level A)

Checks that the alt and title attributes for an image are identical. An alt attribute is read by screen readers whereas a title attribute is visible (as a tooltip or in the status bar). If they differ, different users are receiving different information, undercutting equivalency and equality in user experience.

URL	12 Occurences	Status	Detected on
bgizl8.com/	12	Remediated	Desktop
bgizl8.com/BWpbHS	26	Remediated	Desktop
bgizl8.com/NwDnL8	3	Remediated	Desktop
bgizl8.com/nxEIcB	12	Remediated	Desktop
bgizl8.com/9OyeHv	8	Remediated	Desktop

Link lacks descriptive text (Level AAA)

Checks that each link contains descriptive text that clearly and meaningfully describes what will happen if the user selects it. Without descriptive text, a link can confuse users who rely on screen readers or other assistive technologies. If it is not possible to add link text, add an 'aria-label' attribute to describe the link instead. Or, if the link is necessary for the programming or functionality of the page but is not intended for user interaction, add an 'aria-hidden' attribute to hide it from screen readers.

URL	21 Occurences	Status	Detected on
bgizl8.com/	21	Remediated	Desktop
bgizl8.com/BWpbHS	29	Remediated	Desktop
bgizl8.com/NwDnL8	18	Remediated	Desktop

| bgizl8.com/nxElcB | 20 | Remediated | Desktop |
| bgizl8.com/9OyeHv | 6 | Remediated | Desktop |

New tab or window opens without warning user (Level AAA)

Checks for new tabs or windows opening without warning user. New tabs or windows can be very disorienting for users, particularly those who rely on screen readers or other assistive technologies. Any link that opens a new tab or window should communicate this fact beforehand.

URL	27 Occurences	Status	Detected on
bgizl8.com/	27	Remediated	Desktop
bgizl8.com/BWpbHS	18	Remediated	Desktop
bgizl8.com/NwDnL8	25	Remediated	Desktop
bgizl8.com/nxElcB	20	Remediated	Desktop
bgizl8.com/9OyeHv	6	Remediated	Desktop

Text zooming (resizing) is disabled (Level AA)

Checks that the user's ability to zoom is not disabled. Users with low vision often zoom in on content, text especially, to make it larger and easier to read. The ability to zoom can be disabled using one of two parameters within the content attribute within the <meta name='viewport'> element. Either setting the user-scalable parameter equal to no or setting the maximum-scale parameter equal to 1.0 will prevent users from zooming content, creating a serious or insurmountable obstacle for users with low vision.

URL	21 Occurences	Status	Detected on
bgizl8.com/	21	Remediated	Desktop
bgizl8.com/BWpbHS	25	Remediated	Desktop
bgizl8.com/NwDnL8	10	Remediated	Desktop
bgizl8.com/nxElcB	7	Remediated	Desktop
bgizl8.com/9OyeHv	24	Remediated	Desktop

Visible focus indicator is missing (Level AA)

Checks for a visual focus indicator. By default, browsers display a visual indicator of focus. In most browsers, a dotted outline appears surrounding the element that has focus as users press Tab to navigate the page. When the CSS outline property is set to none or to 0 (zero), this visual indicator of focus is removed, making keyboard navigation virtually impossible. Unfortunately, many commonly-used templates and content management systems set the CSS outline property to none, relying on the site developer to reinstate it.

URL	24 Occurences	Status	Detected on
